Agua Prieta Threatened
DOUGLAS, Ariz., March 11.—Although ordered to evacuate Agua Prieta to prevent the possibility of international complications in the event of a battle, General Ojeda and 500 federal troops are menaced in all directions south of the border by state troops. Huerta ordered the troops to leave, fearing to precipitate a fight, endangering Americans across the line.

The constitutionalists have demanded the immediate surrender of Ojeda, who believes it will be a suicidal attempt to move his force. The only federal garrisons in the northern part of the state of Sonora are Agua Prieta, Nogales, Naco and Cananea. With depleted ranks and no one point containing more than 500 men, each is hard pressed today.

SLIGHT HOPES FOR RECOVERY OF W. S. JOHNSON

CONDITION SUNDAY WAS CRITICAL, ALTHOUGH SLIGHT IMPROVEMENT NOTED

W. S. Johnson, the Pine Creek agriculturist, who has been seriously ill at his home in Tonopah for the past few days, was reported this morning as resting easy, although still in a critical condition. Sunday afternoon his condition was extremely serious and doubts were expressed that he would survive the day. Last night he appeared to have gained a little strength and today a slight improvement was noted.

Johnson was taken ill about two months ago and was rushed to the coast where he was placed in the St. Helena sanitarium. After three weeks in that institution he recovered and returned to Tonopah. Since that time he has been suffering and several weeks ago spoke of again returning to the sanitarium. The press of business affairs would not permit his departure, although he continued to fail.

As soon as the patient gains sufficient strength it is the intention of his physicians to again take him to the coast, as the high altitude of Tonopah seriously affects his heart action.

SENATE PASSES BILL AMENDING GAMBLING LAW

MEASURE LEGALIZES THE PLAYING OF DRAW POKER AND KENO WITHOUT PERCENTAGE

Senator Heffernan's bill amending the anti-gambling law by permitting draw poker and keno to be played and to allow a Paris mutual to be conducted on horse races, when the percentage does not exceed 2 1/2 per cent, was taken up on special order yesterday and passed by a vote of 12 to 10. Senator Tannahill moved to amend by eliminating stud-horse poker and Senator Bell moved to amend by making the law prohibit percentage poker, and the amendment carried. Senator Heffernan explained the bill by saying it would make draw poker and Paris mutual legal.

Sensor Horsey opposed the bill, saying he saw no reason why the law should be changed by making gambling more open than it is now. He said he would like to see the law strengthened instead of being made more lax, and said he saw no reason why poker should be legalized and other gambling prohibited.

Senator Heffernan spoke in favor of the measure, claiming poker was no more of gambling than solo or bridge whist. He said that to enforce the present law would result in every county in the state being bankrupt.

Sensor Mack spoke against the bill, saying the law ought to legalize slot machines operated for checks. Those opposing the bill were: Chapin, Coryell, Delf, Gault, Horsey, Mack, Scanlan, Stiekney, Tannahill and Ascher.

BIG CHIEF OF NEVADA ELKS PAYS OFFICIAL VISIT

WILLIAM WOODBURN OF RENO TO MINGLE WITH TONOPAH HERD THIS EVENING

William Woodburn Jr., whose chief distinction is being the son of General Woodburn of Carson, here in from his Reno home this morning and will tarry a couple of days in this city. Woodburn, who is district attorney of Washoe county also happens to be district deputy grand exalted ruler of the Benevolent and Protective Order of Elks. As such D. D. G. E. R. he is now paying his official visits to the lodges of Nevada. Tonight he will be present at the session of Tonopah lodge No. 1062 and on Thursday night he will visit Goldfield lodge No. 1072.

It was about a year ago that Joe McCormack of Reno, who happened to be the D. D. G. E. R. of the Elks at that time, visited Tonopah. He tarried in this city for several days and on his return to the river side city he carried with him astonishing tales of the hospitality of the Tonopah Elks and that the Reno lodge took on a new lease of life simply from the inspiration of the stories as related by McCormack. Since that date Woodburn has been eagerly awaiting the time for his official visit to the southland.

Aside from being a Reno resident, and incidentally an attorney, Woodburn is a likeable cuss and has many friends and acquaintances in Tonopah, although this is his second visit to this district. He has hopes of some day graduating into a good attorney, and later may emigrate to Tonopah, which he declares is the liveliest town in the entire state.

At the meeting of the Elks tonight Woodburn will witness the manner in which the initiatory work is conferred upon two candidates. He will also make a few remarks, such as all district deputy grand exalted rulers do, and tomorrow will recuperate from the ordeal. Thursday morning he will depart for Goldfield.

BOTH PARENTS AFTER POSSESSION OF ONLY CHILD

FATHER OBTAINS LAD WHILE MOTHER HASTENS TO GOLD-FIELD FOR SAME PURPOSE

Herbert Nash, a bright little fellow perhaps four years old, is the cause of the appearance at the Goldfield yesterday morning of Herbert Nash Sr., who lives in Los Angeles and who wants possession of the boy, says the Tribune. This morning the youngster, accompanied by his father, visited the sheriff and met the mother at the court house.

The boy's mother and father each had a lawyer—that tells the story. Some five months ago Mrs. Nash left her home in Los Angeles with her little son and came to Goldfield to live, intending to establish her residence here and procure a divorce. She obtained employment at the Goldfield hotel under the name of Mrs. Drew and placed the boy out to live with a family. Some weeks ago she went to Blair and is residing there now.

The husband, all this time, according to his statements at the court house, has been looking for her and his son, and last week obtained track of them. He came to Goldfield as soon afterwards as possible and obtained possession of little Bert yesterday, keeping the child with him at the hotel last night. Yesterday morning Mrs. Nash was telephoned to at Blair and arrived here this morning.

This afternoon the question of who shall have the custody of the child is being settled at a conference at the sheriff's office. Nash having called Sheriff Ingalls into the case so no charge of kidnapping, could be brought against him if he took the child away.

Gorton, charged with assault with a deadly weapon will be considered while the charge of grand larceny against H. D. Botsfield will also be investigated. It is understood the inquisitorial body will be asked to again look into the case of grand larceny against Frank Dexter. Dexter has been twice dismissed in the justice court and the grand jury previously conducted an investigation into the matter, but ignored the charge.

It is possible that the grand jury will render a report late this afternoon. Deputy Sheriff W. J. Wilson left for Silver Bow this morning to subpoena W. C. Cook to testify before the body in the case against Gorton.

(By Associated Press)

OTHER STATES SUFFERING FROM FREAK BILLS

CROP OF FOOLISH AND TIME CONSUMING QUESTIONS IS AS LARGE AS EVER

In considering for a moment the ways of aspiring legislators and remembering always that they are paid for their services by the public purse, it is well to remark that Nevada alone is not the birth place of freak legislation.

A New York legislator presents a bill requiring the state to appoint a public handsbaker at a salary of \$5000 a year, with \$5000 additional for travelling expenses.

A Minnesota assemblyman gives his colleagues a chance to debate whether it ought not to be made a felony for a housewife to "steal" the servant of another.

A Massachusetts assemblyman thinks the time of his associates will be well spent in debating whether all proposals of marriage should not be made in writing.

A Missouri legislator proposes that all lobbyists shall appear in uniform cut after a ridiculous pattern.

These are only a few of the proposals made by aspiring legislators recently, in spite of the many pressing and thoroughly discussed measures that might occupy the minds of our lawmakers, the crop of foolish and time-consuming bills seems to be as large as ever this winter.

The freak bill is conspicuous by its absence at Carson City, but there is a suspicion that some of the bills passed, or on the way, will prove to contain a "joker."

QUARTER MILLION IS DISTRIBUTED IN TONOPAH

Yesterday was payday in Tonopah and a sum estimated at over \$250,000 was distributed by the various mining and milling companies to the employees on the pay rolls. The day was without incident and last night passed with but few arguments by the more boisterous celebrators, of which but few were in evidence. During the afternoon and even today local merchants have transacted a record breaking business. The regular monthly accounts were liquidated in addition to the heavy buying that always marks the arrival of the pay day.

CHALLENGE FOR BOXING MATCH HAS BEEN ACCEPTED

BRUCE BRUCE, HUSKY FROM PITTSBURG, ACCEPTS CONDITIONS OF JEFFORDS

Jim Jeffords, a San Francisco heavyweight, who arrived last week and issued a challenge to all local boxers, has evidently met with success in his quest for a match. Bruce Bruce of Pittsburgh, Pa., through his manager, has informed the Bonanza that he is willing to accept the proposition of Jeffords and will fight the San Francisco boxer, according to the terms of the latter, "for money, marbles or chalk."

Bruce is more than anxious to take up the challenge of Jeffords and will sign the articles as soon as they can be prepared. He does not doubt his ability to best Jeffords in a boxing contest. Should such a match be arranged it would prove a good drawing card for the fight fans of Tonopah and vicinity have been without amusement for several months and would attend the bout in a body.

DEXTER CASE IS DISMISSED IN JUSTICE COURT

Both men were charged with grand larceny, as it was alleged they had high graded ore from the Belmont mine. Dexter was placed under arrest several weeks ago on the same charge but was released in the justice court when he appeared for a hearing.

Senator Tannahill of Storey has introduced a resolution in the upper house of the legislature giving public recognition to the work of the late Adolph Sutro, who years ago constructed the famous Sutro tunnel at Virginia City. The resolution in its entirety reads as follows:

Whereas, in the early history of Nevada, Adolph Sutro, who came to the state penniless, and by his indomitable perseverance and pluck constructed a tunnel which enabled the great Comstock lode to be worked to a greater depth and is today recognized as the salvation of the ledge; therefore, be it

Resolved by the senate, the assembly concurring, that the true merits of this stupendous undertaking, which added millions to the wealth of this coast, and has been everywhere recognized as one of the great engineering feats of the century, should be recognized and acknowledged officially by the people of this state. Carried on as it was in the face of the most determined opposition, hampered by natural and financial difficulties, the subject of malignant and unjust attack, the final triumph of the undertaking which enabled the Comstock to be worked at an additional depth of 1800 feet, demonstrated that Adolph Sutro was a man of extraordinary genius and ability, and one of whom the citizens of Nevada should feel justly proud; be it further

Resolved, That the thanks of the people of the state be tendered through its senate and assembly to the late Adolph Sutro for the eminent services to the commonwealth, as a deserved, though tardy tribute to his memory; be it further

Resolved, That these resolutions be spread upon the minutes of both houses and engrossed copies sent to his surviving heirs.

FIRE FIGHTER IS BURNED BY ELECTRIC WIRE

TOM WARDLE HAS NARROW ESCAPE WHILE FIGHTING FLAMES YESTERDAY

Tom Wardle, a member of the volunteer fire department, formerly on the paid department, sustained an injury yesterday while assisting in fighting the blaze in the kitchen of the Colorado house, that came near resulting fatally.

Wardle was in the kitchen, standing in several inches of water, when an electric wire fell, striking him on the neck. The wire carried sufficient voltage to drop Wardle in his tracks. Other fire fighters, believing that he was overcome by smoke, carried the unconscious form outside where the work of resuscitation was performed for a period of five minutes. It was after Wardle had regained consciousness that he was able to tell the nature of the injury.

Where the wire came in contact with his neck a large portion of the skin was painfully burned while his hair was badly singed. Today he is up and about and is experiencing no ill effects from the accident.
